PROFESSIONAL EXPERIENCE

Frontend developer - Contract

Alfinga/Anamen | October 2022- Present

- Creating web front-end user interface for new or existing databases using nuxt and typescript.
- Maintaining and updating the existing projects in line with client's requirements
- Built a Central Invoicing Billing System web application for Edo State hospitals, Nigeria using Nuxt, Vuex and Element UI

Frontend developer - Contract

Curacel | November 2022 - December 2022

- Migrated the existing angular based components to the desired vuejs repository.
- Converted angular codebase to vue.
- Refactored the codebase after migration to be in line with vuejs standards and routing.

Frontend developer - Fulltime

Scelloo/CornieHealth | January 2022- December 2022

- Collaborating with designers, back-end developers, and front-end developers to build a web application for medical practitioners and patients to interact.
- Developed the company's website using Nuxt and Typescript

Frontend developer - Fulltime

Chigisoft | December 2021- November 2022

- Built a scalable and reusable component library using Vue.js, resulting in faster development times and improved code quality.
- Optimized website performance and speed by implementing server-side rendering with Nuxt.js, resulting in a decrease in page load times.
- Collaborated with the design team to create a visually stunning and user-friendly interface for a new job recruitment platform.

Frontend developer - Intern

Chigisoft | May 2021- November 2021

- Participated in code reviews to ensure code quality and consistency.
- Debugged and troubleshoot issues that arise during development or testing.
- Collaborated with the engineering and design teams to develop a bespoke management application that aligned with the client's requirements.
